

[illegible]

1. Avery Adams <u>Absent/Present</u> [Day 1] [Day 2] [Day 3] [Day 4] [Day 5] [Day 6] [Day 7] [Day 8] [Day 9] [Day 10] [Day 11] [Day 12] [Day 13] [Day 14]
2. Blair Brown <u>Absent/Present</u> [Day 1] [Day 2] [Day 3] [Day 4] [Day 5] [Day 6] [Day 7] [Day 8] [Day 9] [Day 10] [Day 11] [Day 12] [Day 13] [Day 14]
3. Casey Chen <u>Absent/Present</u> [Day 1] [Day 2] [Day 3] [Day 4] [Day 5] [Day 6] [Day 7] [Day 8] [Day 9] [Day 10] [Day 11] [Day 12] [Day 13] [Day 14]

1. Swim 25 m or yd Head-up Front Crawl or Breaststroke

- Basic arm and leg mechanics
- Distance completed non-stop
- Eyes above the surface

2. Demonstrate Ready Position with a Stationary Scull for 30 Sec.

- Ready position maintained with toes at or near surface
- Effective support scull showing stationary control
- Time met or bettered

3. Carry a 2.3 kg(5 lb) Object 15 m or yd Using Swimmer's Choice of Lifesaving Kick

- Basic lifesaving kick mechanics with control of direction
- Distance completed non-stop
- Head remains above the surface

4. Demonstrate a Foot-First and a Head-First Surface Dive to a Maximum Depth of 2 m

- Vertical descent
- Depth attained with ease
- Arm extended above the head on ascent

5. Demonstrate 25 m or yd Legs-Only Using Swimmer's Choice of Lifesaving Kick

- Basic lifesaving kick mechanics with control of direction
- Distance completed non-stop

6. Demonstrate the Ability to Inflate 2 Items of Clothing and Use as a Buoyant Assist

- Clothing items inflated
- Candidate Floats Supported by the inflated clothing item

7. Swim 25 m or yd Using Any Stroke. Demonstrate the Ability to Swim Under an Obstacle Located at the Halfway Point

- Candidate swims under the obstacle
- Distance completed

8. Swim Each of the Following Strokes 50 m or yd Front Crawl, Back Crawl, Breaststroke

- Minimum Distance completed (for each stroke)

Front Crawl

- Alternate arm action with overarm recovery and underwater pull
- Hand entry beyond shoulder; pull past hip
- Alternate leg action drive
- Rhythmic kick
- Regular breathing pattern to side with underwater exhalation
- Continuous propulsion

Back Crawl

- Alternate arm action with overarm recovery and underwater pull
- Hand entry beyond shoulder; pull past hip
- Alternate leg action drive
- Rhythmic kick
- Continuous propulsion

Breaststroke

- Symmetrical arm recovery and drive
- Regular breathing pattern with underwater exhalation
- Both legs kick at same time and recover at the same time
- Drive with knees apart; feet wider than knees

9. Complete a 350 m or yd workout on 3 different Occasions Throughout the Training Course

Warm-up:

- 100 m or yd Swimmer's choice

Work Set:

- 6 x 25 m or yd any Stroke on 60 sec

Cool Down:

- 100 m or yd Swimmer's choice
- Workout is completed at least 3 times during the training course
- Ability to locate pulse and count beats per minute

10. Swim 100 m in 3 min. or Better (100 yd in 2:40 min) Using any Stroke or Combination of Strokes of the Swimmer's Choice

- Recognizable stroke(s) used
- Distance completed non-stop
- Time met or bettered

11. Demonstrate primary assessment of a conscious and cooperative victim who describes his or her chief complaint and how injury occurred

- Assessment of environment for hazards
- Establish responsiveness
- Check for obvious signs of bleeding
- Collection of information from victim about chief complaint and how injury occurred
- Activate EMS (if required)

12. Demonstrate the Ability to Recognize When to Call EMS and How To Do It

- Basic understanding demonstrated through performance
- Ability to give examples of circumstances requiring an EMS call
- Ability to demonstrate an EMS call providing the 4 Ws (who, why, what where)

13. Demonstrate Primary Assessment and Appropriate Care for External Bleeding

- Assessment of environment for hazards
- Establish responsiveness
- Assess ABCs
- Check for obvious signs of bleeding
- Direct Pressure
- Elevation if appropriate
- Rest and reassurance for victim
- Recruit bystanders to assist rescuer
- Activate EMS (if required)

14. Look at the Aquatic Facility for 10-15 Sec. Turn and Describe What You Saw

- Recognition of (any) seven elements in the aquatic environment
- Ability to identify at least one element that might be a "hot spot" for potential trouble

15a. Demonstrate Ability to Simulate in the Water the Appearance of a Weak Swimmer and a Non-Swimmer

- Behaviour differentiating between the appearance of a weak swimmer and a non-swimmer

15b. Demonstrate Ability to Recognize the Difference Between a Weak Swimmer and Non-Swimmer

- Ability to identify the difference between the appearance of a weak swimmer and a non-swimmer
- Understanding of potential risk to rescuer safety from these two victim types

16. From a standing Position on Land, Throw a Buoyant Aid With Line to Hit a Target on the Surface of the Water as Many Times as Possible Within 30 sec.

- At least 3 "hits" within time limit
