

Splash 7 Rookie Patrol

Instructor: Alex Instructor
Start Day/Time: 2026-07-06 9:00 AM
Session: Summer 2026
Location: Main Pool
Barcode: DENSE

[illegible]

Splash 8 Ranger Patrol

Instructor: Alex Instructor
Start Day/Time: 2026-07-06 9:00 AM
Session: Summer 2026
Location: Main Pool
Barcode: DENSE

[illegible]

1. Swim 25 m or yd Head-up Front Crawl or Breaststroke

- Basic arm and leg mechanics
- Distance completed non-stop
- Eyes above the surface

2. Demonstrate Ready Position with a Stationary Scull for 30 Sec.

- Ready position maintained with toes at or near surface
- Effective support scull showing stationary control
- Time met or bettered

3. Carry a 2.3 kg(5 lb) Object 15 m or yd Using Swimmer's Choice of Lifesaving Kick

- Basic lifesaving kick mechanics with control of direction
- Distance completed non-stop
- Head remains above the surface

4. Demonstrate a Foot-First and a Head-First Surface Dive to a Maximum Depth of 2 m

- Vertical descent
- Depth attained with ease
- Arm extended above the head on ascent

5. Demonstrate 25 m or yd Legs-Only Using Swimmer's Choice of Lifesaving Kick

- Basic lifesaving kick mechanics with control of direction
- Distance completed non-stop

6. Demonstrate the Ability to Inflate 2 Items of Clothing and Use as a Buoyant Assist

- Clothing items inflated
- Candidate Floats Supported by the inflated clothing item

7. Swim 25 m or yd Using Any Stroke. Demonstrate the Ability to Swim Under an Obstacle Located at the Halfway Point

- Candidate swims under the obstacle
- Distance completed

1. Demonstrate 1 Forward And 1 Backward Somersault in the Water as a Continuous Sequence

- Complete "head over heels rotation" with control of direction
- Somersaults performed as a continuous sequence

2. Stride Entry and Swim 25 m or yd Head-up Front Crawl or Breaststroke. Assume Ready Position

- Eyes above surface
- Basic arm and leg mechanics
- Distance completed non-stop
- Ready position

3. Demonstrate 25 m or yd Eggbeater Kick on Back

- Movement pattern of kick resembles whip kick with alternate leg action
- Drive with knees apart; feet wider than knees
- Distance completed

4. Support a 2.3 kg (5 lb) Object for at Least 1 min. in Deep Water

- Head above surface throughout
- Time met or bettered

5. Head-up Approach into Surface Dive to a Maximum Depth 2 m Swim Underwater for At Least 2-3 m or yd to Recover a Small Object. Surface and Carry Object to Starting Point

- Eyes up and forward on approach
- Vertical descent
- Travel in designated direction
- Eyes open underwater
- Object recovered and returned to starting point
- Arm extended above head on ascent

6. Demonstrate an Assisted Removal of a Conscious Victim

- Victim removed safely with concern for victim comfort
- Appropriate choice of removal
- Prevention of injury to rescuer and victim

7. Swim Each of the Following Strokes 75 m or yd: Front Crawl, Back Crawl, Breaststroke

- Minimum distance completed (for each stroke)

Front Crawl

- Alternate arm action with overarm recovery and underwater pull
- Hand entry beyond shoulder; pull past hip
- Alternate leg action drive
- Rhythmic kick
- Regular breathing pattern to side with underwater exhalation
- Continuous propulsion

Back Crawl

- Alternate arm action with overarm recovery and underwater pull
- Hand entry beyond shoulder; pull past hip
- Alternate leg action drive
- Rhythmic kick
- Continuous propulsion

Breaststroke

- Symmetrical arm recovery and drive
- Regular breathing pattern with underwater exhalation
- Both legs kick at same time and recover at the same time
- Drive with knees apart; feet wider than knees
- Continuous propulsion

8. Swim Each of the Following Strokes 50 m or yd Front Crawl, Back Crawl, Breaststroke

- Minimum Distance completed (for each stroke)

Front Crawl

- Alternate arm action with overarm recovery and underwater pull
- Hand entry beyond shoulder; pull past hip
- Alternate leg action drive
- Rhythmic kick
- Regular breathing pattern to side with underwater exhalation
- Continuous propulsion

Back Crawl

- Alternate arm action with overarm recovery and underwater pull
- Hand entry beyond shoulder; pull past hip
- Alternate leg action drive
- Rhythmic kick
- Continuous propulsion

Breaststroke

- Symmetrical arm recovery and drive
- Regular breathing pattern with underwater exhalation
- Both legs kick at same time and recover at the same time
- Drive with knees apart; feet wider than knees

9. Complete a 350 m or yd workout on 3 different Occasions Throughout the Training Course

Warm-up:

- 100 m or yd Swimmer's choice

Work Set:

- 6 x 25 m or yd any Stroke on 60 sec

Cool Down:

- 100 m or yd Swimmer's choice
- Workout is completed at least 3 times during the training course
- Ability to locate pulse and count beats per minute

10. Swim 100 m in 3 min. or Better (100 yd in 2:40 min) Using any Stroke or Combination of Strokes of the Swimmer's Choice

- Recognizable stroke(s) used
- Distance completed non-stop
- Time met or bettered

11. Demonstrate primary assessment of a conscious and cooperative victim who describes his or her chief complaint and how injury occurred

- Assessment of environment for hazards
- Establish responsiveness
- Check for obvious signs of bleeding
- Collection of information from victim about chief complaint and how injury occurred
- Activate EMS (if required)

8. Swim 100 m or yd Individual Medley as Follows: 25 m or yd Each of Lifesaving Kick, Back Crawl, Breaststroke, Front Crawl

- Non-stop medley completed at least 3 times during training course
- Ability to locate pulse and count beats per minute

9. Swim 200 m in 6 min. or Better (200 yd in 5:20 min) Using Any Stroke or Combination of Strokes of the Swimmer's Choice

- Recognizable stroke(s) used
- Distance completed non-stop
- Time met or bettered

10. Demonstrate a Primary Assessment Including Hazards and ABCs on an Unconscious, Breathing Victim

- Assessment of environment for hazards
- Establish unresponsiveness
- Activate emergency medical system
- Position victim (turn if necessary)
- Open airway
- Check for breathing; look, listen and feel (no more than 5 sec)
- Semi-prone position

11. Demonstrate Emergency Care for a Victim in Shock

- Assessment of environment for hazards
- Establish responsiveness
- Assess ABCs
- Activate EMS (if required)
- Maintenance of natural warmth
- Rest and reassurance
- Semi-prone position (unless injury dictates otherwise)
- Bystanders recruited to assist rescuer

12a. Simulate the Appearance and Treatment of a Conscious Adult or Child Victim with an Obstructed Airway

- Assessment of degree of obstruction
- ask: "Are you choking?"

Selection of appropriate procedures:

12b. Simulate the Appearance and Treatment of a Conscious Adult or Child Victim with a Mild Obstructed Airway

- Coughing encouraged
- Reassurance for victim

12c. Simulate the Appearance and Treatment of a Conscious Adult or Child Victim with a Severe Obstructed Airway

- Shout for help
- Careful land marking
- Repeated abdominal thrusts (chest thrusts for Pregnant or obese victim) until airway is clear
- If successful, victim directed to see a physician to rule out complications from the obstruction or treatment

12. Demonstrate the Ability to Recognize When to Call EMS and How To Do It

- Basic understanding demonstrated through performance
- Ability to give examples of circumstances requiring an EMS call
- Ability to demonstrate an EMS call providing the 4 Ws (who, why, what where)

13. Demonstrate Primary Assessment and Appropriate Care for External Bleeding

- Assessment of environment for hazards
- Establish responsiveness
- Assess ABCs
- Check for obvious signs of bleeding
- Direct Pressure
- Elevation if appropriate
- Rest and reassurance for victim
- Recruit bystanders to assist rescuer
- Activate EMS (if required)

14. Look at the Aquatic Facility for 10-15 Sec. Turn and Describe What You Saw

- Recognition of (any) seven elements in the aquatic environment
- Ability to identify at least one element that might be a "hot spot" for potential trouble

15a. Demonstrate Ability to Simulate in the Water the Appearance of a Weak Swimmer and a Non-Swimmer

- Behaviour differentiating between the appearance of a weak swimmer and a non-swimmer

15b. Demonstrate Ability to Recognize the Difference Between a Weak Swimmer and Non-Swimmer

- Ability to identify the difference between the appearance of a weak swimmer and a non-swimmer
- Understanding of potential risk to rescuer safety from these two victim types

16. From a standing Position on Land, Throw a Buoyant Aid With Line to Hit a Target on the Surface of the Water as Many Times as Possible Within 30 sec.

- At least 3 "hits" within time limit

13a. Demonstrate Ability to Simulate in the Water the Appearance of a Weak Swimmer, a Non-swimmer and an Unconscious Victim

- Behaviour differentiating between the appearance of a weak swimmer an a non-swimmer; and the behaviour consistent with that of an unconscious victim

13b. Demonstrate the Ability to Recognize the Difference Between a Weak Swimmer a Non-swimmer and an Unconscious Victim

- Ability to identify the difference between the appearance of a weak swimmer and a non-swimmer; and ability to recognize the unconscious victim

13c. Demonstrate the Ability to recognize and Avoid Victims Who Present a Danger to the Rescuer

- Recognition of risk or threat to personal safety
- Speed of avoidance response including use of ready position or back/swim away or submerging quickly
- Calm, clear direction to victim

14. Perform a Non-Contact Rescue Using a Buoyant Aid. Approach 20 m or yd and Encourage Victim to Safety While Maintaining a Safe Distance and Calling for Assistance. Rescuer Performs Appropriate Follow up Procedures, Including Treatment for Shock

- Quick accurate recognition
- Personal safety maintained
- Appropriate assessment of situation
- Call for help
- Appropriate choice and use of aid
- Appropriate entry and efficient head-up approach
- Ready position at a safe distance
- Provision of aid to victim at earliest opportunity
- Victim secured at nearest point of safety
- Appropriate care of victim and follow-up
- Visual contact and constructive communication
- Victim reassured until rescuer relieved of responsibility
